LIGHT COMMERCIAL BIKES – C3i & R3i

C3i – LIGHT COMMERCIAL UPRIGHT BIKE

C3i Light Commercial Upright

A comfortable contoured seat and ergonomically designed multi position handlebars combine for a smooth and quiet ride. Use exercise programs for Weight Loss, Healthy Living and Sports Training, then view your results in your personal online fitness account.

Intelligent, Easy-to-Use Console

The C3i includes advanced features designed to make the console intuitive and help you get more out of your time spent exercising. These features include our patented Intelli-Key™ system, exercise programs grouped into logical categories like weight loss, sports training and heart rate control, and a USB port that automatically saves your exercise results onto a USB flash drive so you can see your progress and 4 x instant resistance keys allowing easy selection of favourite levels.

Quiet, Durable Drive System

A quality drive system is only as good as its weakest component. The C3i includes a long list of features designed to ensure a quiet and reliable ride that will support years of use, including a commercial bottom bracket with oversized bearings and cast pulley instead of plastic.

Comfortable, Adjustable Seat

The cushioned seat has 18 height adjustment settings to ensure a perfect fit and comfortable ride. These adjustments range from 76cm up to 105cm measuring from the top of the seat to the fully extended pedal. This supports most users from 5'0" to 6'8" tall.

Infiniti Fitness Club

This online health management program lets you select exercise programs, track & manage your results and receive encouragement and motivating support as you work towards achieving your fitness goals.

R3i – LIGHT COMMERCIAL RECUMBENT BIKE

R3i Light Commercial Recumbent

Designed to meet the demands of a light commercial setting the C3i and the R3i are also great for the discriminating owner. The C3i and R7i feature heavy duty frames and durable drive systems, intelligent console and a relaxed, natural riding position.

Comfortable Seat

The R3i includes a super soft moulded foam seat bottom, and unique flexible and ventilated seat back. The seat includes soft arm rests with heart rate sensors moulded right into the armrests. Collectively, these features offer the most comfortable and durable seat available — and the more comfortable the seat, the longer you will want to keep exercising.

Seat Adjustment

The seat back angle adjusts with hydraulic assistance allowing every user to sit comfortably at any angle

Intelligent, Easy-to-Use Console

The R3i includes advanced features designed to make the console intuitive and help you get more out of your time spent exercising. These features include our patented Intelli-Key™ system, exercise programs grouped into logical categories like weight loss, sports training and heart rate control, and a USB port that automatically saves your exercise results. 4 x instant resistance keys allows the user to quickly jump to desired levels.

Quiet, Durable Drive System

A quality drive system is only as good as its weakest component. The R3i includes a long list of features designed to ensure a quiet and reliable ride that will support years of use, including a commercial bottom bracket with oversized bearings and cast pulley instead of plastic.
